

Safety Alert 002

Title: Product recall notice – Buderus 500 and 600 domestic boiler series

Date issued: 20 November 2009

This Safety Alert brings to the attention of Gas Safe Registered businesses/engineers a product recall notice concerning the Buderus 500 and 600 domestic boiler series

Introduction

Buderus UK has issued a voluntary recall on a limited number of products sold under the Buderus domestic brand. To assist Buderus to locate affected appliances, this Safety Alert has been published in support of the original release of the Gas Safe Register Safety Alert on 1 August 2009, which was sent by letter to all registered businesses holding the relevant qualifications to undertake gas work on domestic boilers.

Buderus UK have advised of a potential issue with some of their appliances in the 500 and 600 series boiler ranges. The 500 series was particularly popular with Local Authorities and Registered Social landlords, for its functionality and serviceability.

Attached is a copy of the Safety Alert which is self explanatory.
